

Wow, this is a tragedy. This story really needs to get out. The siege of Friday/Saturday 17/18 March 2023.

In 2010 I was involved similarly in a case in 2010. Asked by a friend to come to their house because they were surrounded by police on (false and Bank) reports of them possessing a g...un.

My ex partner & I gate crashed our 4WD through a police cordon and spent an hour inside the house while police numbers gathered in numbers on the outside of the property, a 5 acre property on a circuit.

Coming into the circuit the road was blocked by a Truck with a container on its semi, crossing - blocking the road. That raised alarm bells with me.

After an hour in the house, I exited the back door after looking through a back window and seeing the coast was clear. Walking cautiously around the circuit I found the other side of the circuit also blocked by a container truck. I jogged with my briefcase around the blockage and away from the growing number of policemen on foot at the entrance to the property. After jogging 5km at full pace and exhausted, all the while looking for a house so I could make a phone call from (no mobile phone with me), I sat down at a bus stop and realised in my briefcase was my computer laptop and I could call on the laptop through skype to my ex. I immediately did 2 things:

- 1. Sent an urgent email to my East Coast of Australia database with a message " "Urgent, house right now under siege by police, need help now..." followed by a brief explanatory message, and**
- 2. Called my ex partner who had remained at the under siege house, to see that all 4 house bound people where ok. Two senior officers had in the interim approached the front door of the house and had shouted through closed locked doors that backup was on the way, including the SWAT unit. Another friend, having seen my email, attended the back area of the house under bushes and taken video footage of police gunmen in the back garden.**

I told my ex, over the skype call, to sit in a chair and not move a muscle because if the police crashed through the door they would shoot anything that moved then ask Q's afterwards, and to await help that I would muster immediately.

Within 30 minutes the Channel 7 and 9 News helicopter flew above the house and above the police black opps helicopter, which took off immediately. (6 people were online and immediately began contacting the media)

200 police began quickly to abandon the siege and quickly left the scene

The media came to the rescue that day and saved 4 lives. I tell this story to provide credibility to what I propose next in relation to the below death of an innocent community member and a victim of police aggression, oppression and negligence

A Country Gone Wrong!

An innocent man died, brought on by Queensland Police Service officers intimidation, pressure, oppression, and no matter how one views the case, it was an example of an agenda to suppress and perhaps even murder people within the freedom loving community and quell resistance to "State" Tyranny.

There was no threat to the public from the victim, Steve, and therefore no need for imposition of such harsh, draconian, aggressive and malicious ter...rorist actions by Queensland Police Service and its officers.

The Queensland Police Service Officers (the Police Officers) acted way beyond what was reasonable, they acted wrongly in applying their aggressive tactics, and they were malicious, negligent and reckless.

Solution?

See attached

Subject: FOUND IT! MUST WATCH!!

To:

ORDER KILL AUSTRALIANS BY UNCONSTITUTIONAL FOREIGN CORPORATE EMPLOYEE OUTLAW POLICE

Terrorist unlawful foreign employees acting as Police have killed an innocent Man in Queensland who stands by the rule of law.

Absolutely no way this should have escalated to this point. Steven was a gentle soul. One of the most intelligent people we have ever known. So to be well educated is a threat? I'm sick to my stomach.

R.I.P Steven

These corporate outlaw punks that call themselves police will all be locked up for treason when this country is returned to the Rule of Law the 1901 Constitution. This rabid gutter scum pin dicks in black costume communist Stazi corporate cop crap is not going to go on for much longer. After this lot of traitors are locked up for life all Police will be on a strict Constitutional leash like they are supposed to be.

Complying with tyrants has a 100% failure rate people, whatever these tyrants say DO THE OPPOSITE...

All State & Federal Governments are unlawful & illegitimate. Stop doing what they say & take them out.

Neither the Federal nor the State Governments are sovereign bodies:

they are legislatures with limited powers, any law which they attempt to pass

in excess of those power is NO LAW AT ALL it is simply a nullity entitled to NO OBEDIENCE..
